

Joan Clark's 16th Annual MOON GODDESS RETREAT

Akashic Record Certification and Plant Spirit Alchemy
April 12- 15th - 2019 Circle S Ranch - Lawrence, Kansas

* Circle S Ranch has added a few new things since some of you have been there. A chapel, conference room and labyrinth. Please bring good walking shoes, bathing suit for the hot tub and comfortable clothing. We will be working on the land and doing earthing exercises to ground us.

It's time to take our work to a new level. We hope you will join us.

For Your Pleasure--

* Goddess Angelina Artemoff will be offering cranial sacral treatments tied into this work. Treatments are 1 hr.. To reserve a treatment email her directly at:
emeraldoceanalchemy@yahoo.com

* Goddess Lana Haas will be offering us a Saturday evening Kirtan to really open us up to receiving information and working with the plant spirit energies through the Akashic records. Get ready to chant, move and be elevated to a higher state of joy and love.

* Bring your drum, rattle or any musical instrument that you would like to have with you. We will be doing energy work on the land. Please bring good walking shoes and a medicine blanket with you.

This year's retreat is a big one! Adding more dimensions to our work with the spiritual alchemy of the plants by working in the Akashic Records.

The **Akashic Record Certification** that you will be doing with **Goddess Grace Lindsay** will be a **9-hour training**. In between we will be working in the Akashic Records with the plants and the spirits of the land and in our own personal Akashic Records.

I believe this certification will be a powerful addition to the work that you are already doing with the plants and in your other fields of specialty.

For anyone who is already certified in the Akashic Records this will be a good review for you. It will also be a way you can assist those just new to working in the records, as you stand in your space of support and wisdom.

This is an intensive. We will be in study and training, **but there will also be plenty of time to sing, dance and work with our creative spirits in new and wonderful ways.**

The **space is limited** for this training. As you are feeling called to come and join us we would love to have your Medicine Woman Spirit with us-- **so please act fast!**

Cost: \$1,200.00 (with shared lodging which includes all meals and retreat materials and certification.)

Deposit: \$500.00 (non-refundable)

Register: please visit. www.joanclark.com (Education/Travel Page).

Incorporating Akashic Records work into Plant Spirit Alchemy is a new way of gathering information from the plants, as you create your own medicine woman apothecary for yourself, family and clients.

By working in the records you are able to access information from the Masters, Teachers and Loved Ones that will be specific to your work and the needs of your clients. It becomes wisdom-specific to you as a medicine woman, and is just the next layer of bringing more wisdom and information into your work.

You may also access the Akashic records when working with a client, friend, family member or yourself to assist you in what you may need from the plant spirits or what kind of healing work, energy work, etc. would best benefit the person, condition, etc. you are presently working on or with.

The records will become your favorite library of direct (gnosis) information from the highest form of energy possible. You will see your work and your connection to your own inner wisdom begin to change and take form in a new way. You may also feel a new sense of empowerment pouring forth as you work with the records for your own intuition will expand in new ways.
