CHAKRA

collection

7 Inviting Scents Attuned
to Awaken the 7 Chakras

The Chakra Collection is a synergy of seven anointing oils and supporting perfume mists crafted to enhance the seven energy centers of the body.

As one consciously applies the anointing oil to a given center, the blend infuses and aids the natural wisdom and potent energies within to align. A gentle spritz of the corresponding perfume mist serves to further elevate and assist the process to completion – balancing, clearing, and assimilation.

The Chakra Collection is a great ally for the conscious individual, healing practitioner, energy worker, massage therapist, yoga instructor, coach.
