CHAKRA COLLECTION

Seven unique scents
for the seven Chakras

The Chakra Collection is seven anointing oils and perfume mists crafted to enhance the seven energy centers of the body.

When an energy point is annointed, the blends help awaken the wisdom and potent energy within each of the chakras. Used as a perfume mist, they elevate and assist the aura by keeping it balanced and clear, and the energy fields united.

The Chakra Collection can be used by healing practitioners, energy workers, exercise facilitators, massage therapists and individuals.
