Mystical, Mythical, Spiritual Glastonbury – a voyage into the heart and spirit of the Mystery School of Avalon.

It was 13 years ago that we were called to gather in Glastonbury and work with the **Mystery School Teachings of the Goddess**. And now it is time to return.

** To walk upon the Earth where secrets have been stored and portals of energies are to be reawakened-- as we remember our times there from lifetimes past.*

** To stand within the sacred stones of Stonehenge and be anointed with their wisdom and the alchemy they hold-- as we receive the blessings of the light of the spring equinox energies.*

We will immerse ourselves in the sacred waters at **Chalice Well** and sit in the Temple where we gathered many moons ago. These are but a few of the things we will experience on this journey to Glastonbury, England.

This sacred journey to the land of Avalon will focus on opening up to the sacred dream that is calling you: the divine dream that has been waiting for you, which is now ready for you to manifest.

Come join us for a **holy journey** to the land which was once called Avalon, and which lives between time and space. Here we will be allowed to **focus on the remembering of the Goddess traditions** where magic, alchemy, mystery, imagination, creativity and sacred wise women teachings were empowered, cherished, respected and honored.

It will be a week of **joyfully exploring our own connection to earth spirituality**, the cycles of the moon and the rhythms of the seasons; as well as a time to **share our creativity, stories, and wisdom** with one another. **Working with plant spirit alchemy** and all that guides the spirit of the Goddess.

We shall experience not only the sacredness of the sites of this land but, too, that of our bodies as sacred temples full of their own wisdom, alchemy and Goddess lore. Be prepared to **write, create, dream, dance, chant, imagine**, and remember that such visionary magic is our path to wholeness.
