Dena and Joan have been working toward the empowerment of women and with plant spirit alchemy for over 20 years together.

We invite you to join us for an empowering weekend filled with aromatic artistry, movement, yoga, dance, meditation, essential oil blending, wisdom-sharing and much more, as we honor and empower the different stages of being woman.

You will learn the power of plant-spirit alchemy through the use of the 9 different **Aroma*Woman Synergies**, designed consciously by Master Aromatherapist Joan Clark to help nurture, support, pamper, uplift and inspire women as they journey into and through the different phases, cycles, archetypes and rights of passage of their lives. Each of the three archetypes-- Maiden, Mother, Crone-- remains a part of a woman's essence and presence always, and each passage needs to be honored in its own specific way. Together we will delightfully embrace, explore and cherish each one and use the Aroma*Woman Synergies as support agents.

We invite you to come move, dance, sing, create art, aromatic products and share your stories with Joan Clark and Dena Joy Drotar.

The **Aroma*Woman Gatherings** are precious moments shared with other women who desire to honor and celebrate being **woman** by illuminating our beauty, passion and creative life-force-- and by way of incorporating the immense power of Mother Nature to nurture and comfort each phase of the divine feminine journey. We hope you will join us.
